## AN AGREEMENT HAS BEEN REACHED

Two Hundred Thousand Miners  
Will Return to Work.

BOTH SIDES ARE PLEASSED

Feeling Between Operators and Their  
Employees More Harmonious Than  
Has Existed in Years—Scale Dis-  
pute in Iowa Is Adjusted.

Toledo, O., April 18.—The 200,000 idle miners in the central competitive district will go to work next Monday. An amicable agreement between miners and operators has been reached by members of the scale committees and this agreement was later ratified by the joint meeting of miners and operators. Both sides are satisfied with the results of the convention and the conference adjourned with the best of feeling between the two parties to the controversy.

The terms of the agreement provide for the general resumption of work throughout the district next Monday. The adoption of the old rate of 90 cents a ton for mining coal; a referendum vote to be taken by districts and a call of the committee to receive the returns of the vote, the referendum being on the proposition to make the agreement hold for two years; a uniform screen of 14 inches; an eight-hour day; the referring of all local differences as to prices and conditions to the districts for settlement; an invitation to Illinois operators to join in the next interstate convention; and that the next joint interstate conference be held in Toledo in February, 1910.

Miners and operators are delighted with the outcome of the conference and declare there is now a more harmonious feeling between miners and operators than has existed in years.

### COMMITTEES REDUCED.

Miners and Operators of Southwest  
District Confer.

Kansas City, Mo., April 18.—After the agreement drawn by the operators had been rejected by the miners' conference committee and a similar agreement drawn by the miners had met a like fate at the hands of the operators' committee, the conference of miners and operators in the Southwest district decided to reduce the committees to six members each. The committees had consisted of fifteen members. The new committees met

to formulate new scales, which will be presented at a joint conference.

The operators will insist upon a clause in the agreement providing for the penalizing of individual members of the miners' organization for contract-breaking.

### PAYMENT OF SHOT FIRERS

Main Difference Between Miners and  
Operators.

Springfield, Ill., April 18.—The differences between the miners and operators have been sifted down to one proposition, and that is the payment of the shot firers employed in the mines. The matter was taken from the joint scale committee and brought into joint convention of the miners and operators where for hours its final disposition was argued by representatives of both sides and will again be taken up in joint convention for further consideration.

The operators have flatly refused to pay any part of the cost of maintaining shot firers as provided for in the state mining laws.

The question as to whether the mines of Illinois shall be closed or not hinges upon the settlement.

### AGREEMENT IN IOWA.

Operators and Miners Adopt a Scale  
Similar to the Old One.

Des Moines, Ia., April 18.—The joint conference of operators and miners of the Iowa district has agreed upon a scale which is in practically every respect a duplicate of the expired contract. The new agreement is made to cover the period of a year. The only step remaining for a resumption of work is the ratification of the agreement by the miners' union, the operators having already ratified it. The district officers of the union say that the miners will also ratify promptly. The mines in Iowa have been closed since April 1.

### Damaged Steamer Floated.

New York, April 18.—With the aid of three wrecking tugs and a lifting tide the Scandinavian-American line steamer United States was floated from the mud bank in lower New York bay where she grounded after a collision with the steamer Monterey while departing for sea. The United States was brought in to quarantine and will be towed to the city for repairs. The passengers were taken off the steamer.

### Taft Headquarters in Chicago.

Chicago, April 18.—Headquarters for the promotion of the candidacy of Secretary of War Taft for the presidential nomination have been engaged at the Great Northern hotel here. It is understood that Arthur I. Vorys of Columbus, Mr. Taft's campaign manager, will come to Chicago to take charge of the bureau.

### EVANS FEELING BETTER.

Rear Admiral Says He Will Soon Be  
on Duty Again.

Paso Robles, Cal., April 18.—"I'll soon be on the quarter deck again," said Rear Admiral Robley D. Evans to Dr. L. E. Phillips as he came from the baths. The commander-in-chief of the Atlantic battleship fleet had just had his treatment in the Kurhaus and was feeling unusually bright and looking very much better than at any time since his arrival at the Hot Springs. He spent an hour on the lawn watching various games and appeared to be in a jovial mood.

Admiral Evans confirmed the report that Rear Admiral Thomas would give up his command soon after the arrival of the fleet in San Francisco and explained that it would enable Rear Admiral Sperry to thoroughly get his hand in before he starts with the fleet on its world voyage.

"It's just like Charlie Thomas to do something handsome for somebody else," said the commander-in-chief.

Admiral Evans paid a glowing tribute to Rear Admiral Thomas for his faithfulness and loyalty to him during the long cruise from Hampton Roads.

### TELEGRAPHIC BREVITIES.

Sir Henry Campbell-Bannerman, the former British premier, continues to fail.

Mlle. Reine Harden-Hickey, an instructor in vocal music in the College of Fine Arts of Syracuse university, is dead at Syracuse, N. Y.

Ernest Mornes, nine years old, is dying at Newcastle, Pa., as the result of a bullet wound inflicted by a young companion while playing "cowboy."

Charles March of Toronto, one of the international officers of the Brotherhood of Painters and Decorators of America, died suddenly at Montreal.

## DEBATE IN THE HOUSE

Deals With the David Jayne  
Hill Incident.

### BECAUSE HE IS NOT RICH

Congressmen Perkins and Slayden Be-  
lieve Emperor William Objected to  
Hill's Appointment as Ambassador  
to Germany.

Washington, April 18.—The attitude of Emperor William and the Berlin court toward David Jayne Hill, named by the president to be ambassador at that capital, was the subject of comment in the house of representatives during the consideration of the diplomatic and consular bill. Both Mr. Perkins of New York and Mr. Slayden of Texas expressed the opinion that the objections to Mr. Hill were due to no other cause than that Mr. Hill was financially unable to maintain a certain standard of social representation. Each of them condemned the practice which they said had grown up of selecting men of great wealth to be the nation's diplomatic representatives abroad and urged as a means of counteracting the effect of such a policy the housing of our diplomats in buildings owned by the government and the allowance to them of salaries sufficient to enable them to maintain the dignity of their high offices.

Under license of general debate, Mr. Briggs of Georgia spoke in advocacy of the disfranchisement of the Southern negro; Mr. Burton of Ohio discussed the causes of the recent financial depression, Mr. Hill of Connecticut reiterated his views in favor of the Fowler financial bill, Mr. Byrd of Mississippi attacked the protective tariff policy of the Republicans, Mr. Thomas of North Carolina made a plea in support of the proposition for an inland waterway from Cape Cod to Beaufort, N. C., and Mr. Saunders of Virginia urged governmental aid to various schools of the several states in promoting the cause of agriculture. Mr. Cousins of Iowa, chairman of the committee, deferred for a day the usual explanation of the diplomatic bill.

### PASSED BY THE SENATE.

Bill Dealing With Injunctions Against  
Enforcement of State Laws.

Washington, April 18.—Injunction against the enforcement of state laws can only be issued by a majority of three federal judges who are to pass upon them if a bill that has passed the senate becomes a law. The bill was drafted in the judiciary committee from a number of measures under consideration. It was reported by Senator Overman and its provisions were explained by him to the senate. A substitute by Senator Burkett was disagreed to. The Overman bill was opposed by Mr. Heyburn on the ground that the great distances between the federal courts in the West would operate to delay the granting of necessary injunctions. Senator Knox favored the passage of the bill and opposed Mr. Heyburn's argument.

The senate discussed at length the bill to appropriate the proceeds of the sale of certain public lands for the reclamation of swamp lands, but made little progress toward its passage.

### ALDRICH BILL KILLED.

House Committee Tables Measure by  
Unanimous Vote.

Washington, April 18.—The house committee on banking and currency has voted unanimously to table the Aldrich currency bill, already passed by the senate.

The discussion in committee was brief. The only point debated was as to whether or not the committee should make a formal report giving its reasons to the house for its unfavorable action and that the conclusion was finally reached that no reasons should be given. Consequently the committee's report will be a mere statement of the action of the committee.

### COIN KILLS AGED MAN.

Copper Cent Swallowed Sixty Years  
Ago Causes Death.

La Porte, Ind., April 18.—A large copper cent, swallowed sixty years ago, caused the death of James Huckins, sixty-seven years old, a farmer. The coin became encased in the lining of the stomach at the time it was swallowed and remained there until recently, when an abscess formed. Poisoning ensued, causing death.

### Leech's Nomination Confirmed.

Washington, April 18.—The senate has confirmed the nomination of John S. Leech of Illinois to be public printer to succeed Charles A. Stillings.

## REFUSES TO RETRACT

Mr. Lilley Reiterates Charges  
Before Committee.

### RIGID CROSS-EXAMINATION

Fails to Make the Congressman With-  
draw Any of His Assertions—Stev-  
ens and Olmsted Manipulate the  
Probe Relentlessly.

Washington, April 18.—Representative Lilley of Connecticut, under whose resolutions a special committee of the house has been investigating the Electric Boat company, reiterated his charges before the committee that the company has made excessive profits on the contracts it has secured from the United States government, and the most rigid cross-examination by members of the committee, assisted by Martin Littleton, attorney for the Electric company, failed to make him retract. Mr. Howard, Mr. Stevens and Mr. Olmsted manipulated the probe relentlessly and vigorously, the latter two especially trying to get the author of the charges to admit that the secretaries and other officials of the navy department were incompetents, and that they were fooled and duped in entering into contracts with the Electric company.

An attempt by Mr. Stevens to have Mr. Lilley testify that on the shoulders of the president should be placed the responsibility for the alleged incompetency of naval officials elicited the reply that the policy which has brought into office five secretaries of the navy in as many years is a poor policy.

A dip in "the briny" is nowhere considered sufficient for cleanliness, and among the Polynesians one can hardly insult a man more than to state that his skin shows marks of salt water. In fact, directly after bathing in the sea a bath in fresh water is considered a necessity to wash off the salt.

### Shingles of Cement.

A company has been formed at Saginaw, Mich., for the manufacture of re-enforced cement shingles. They will manufacture plain and ornamental shingles, hip covering and ridges, ornamental tile and other roofing material now made of terra cotta only. A large and complete factory will be erected in Saginaw and operations commenced at an early date.

### Gold Locating Bag.

People in Oroville, Cal., were interested the other day in experiments made with a gold indicator invented by W. C. Cofford of Tehama county. It is a leather bag containing a substance prepared by Cofford. This is attached to a string, and when carried about it will swing toward any large deposit of gold. It swung toward banks and other places where gold was known to be found.

THE fellows who said Minnesota was a Taft state some months ago builded better than they knew. Even the La-Follett followers are now convinced.

A MAN confined in a Duluth jail was found dead after having eaten a cake of soap and consumed a magazine. The fault can not be laid to the soap but the magazine articles may have been too strong for him.

Now that the primary skirmish in Minnesota as to who the republicans desire as their standard bearer on the presidential ticket has been settled, it is expected the state campaign will open up all along the line.

THE water in the Mississippi river is at a very low stage, in fact more so than usual at this time of the year, and the same report is general regarding small streams and lakes throughout the northern part of the state. It will take a June freshet to move the log drives.

THE Pioneer Press urges that the state through its fish and game commission should take immediate steps to widen the creeks and streams within its borders in order that the fish may not be destroyed by suffocation or being trampled on. Protection to fish along other lines will have a more beneficial effect.

THE Aitkin postoffice contest has been settled—satisfactorily to the present incumbent, Capt. Shook, who will now receive the appointment at the hands of Congressman Bede. A three cornered fight developed at Aitkin with Editor Hollister of the Age, the present postmaster and Frank Phillips as candidates. The situation taxed the congressman's ability to settle it in a satisfactory manner to all concerned and he suggested an election between the first two leaving Phillips out of it entirely. Editor Hollister looked the field over and concluded that it would throw the community into a bitter contest and make enemies of friends and he has

notified the congressman and published the announcement in his paper that the election is off and that he is no longer an aspirant. This leaves the appointment to Capt. Shook.

### Bird For Feast Flew Into His Arms.

A flock of wild geese became lost in a windstorm the other night at Elwood, Ind., and, being attracted or blinded by the electric lights, one of the birds, weighing twelve pounds, flew against Fred Fornshell, knocking him down. The goose proved to be a fine specimen, and it was placed in a wire cage to be fattened. It will be the main feature of a wedding feast immediately after Easter, cards having been previously issued announcing the marriage of the young man to Miss June Callaway.

### TWO MORE BODIES.

Recovered From the Ruins of the Fire at Chelsea, Mass.

Boston, April 18.—Two more bodies have been found in the ruins of the Chelsea fire of last Sunday, making the number recovered eleven and the number of known victims thirteen, which includes two who died in hospitals.

The latest bodies found were both males. The first found was recovered at 29 Marlborough street, where search was made through the efforts of a sister of a man who lived at that number and who had been missing. The body was identified by means of a watch and the teeth as that of Harry Lewis, aged forty-two years, employed as a messenger in Boston.

The second body was found at Popular street and was that of a male adult. The list of missing is still large and it is feared many of them perished.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

### GREATLY OUTNUMBERED.

But Russian Troops Defeated Kurdish Raiders.

Tiflis, April 18.—The Russian troops which recently invaded Persian territory in the vicinity of Lenkorah for the purpose of punishing Kurdish raiders of the Russian garrison at the frontier post, Belesuvar, April 13, acted with a promptitude calculated to overawe the tribes of the first class near Belesuvar.

The fight which ensued assumed the proportions of a pitched battle. The Russians were greatly outnumbered, but they pressed the battle with great vigor and routed the Persians, inflicting a loss of 34 men killed and 50 wounded. The remainder of the tribesmen broke and fled.

The Russians lost 1 officer and 7 soldiers wounded.

The cannonade set fire to the village of Belesuvar, the destruction of which was completed by the Cossacks after a ruthless house to house search for the Russian arms stolen during the raid of April 13.

Pressing their advantage, the Russians bombarded the neighboring villages of Kodzhahabeklu and Zariah, and razed both.

The noncombatants suffered great losses.

### THE OLDEST AMERICAN.

President Roosevelt Asks That the Indian Be Given a Fair Show.

Washington, April 18.—"After all, gentlemen, he is the oldest American of all of us; so give him a fair show; give him a chance."

In these words President Roosevelt spoke to the members of the Tulsa, Okla., Commercial club, who with a brass band and flaming banners called at the White House and made it known to the president that they favored the removal of restrictions of the sale of Indian lands in the new state. The president told the club that he would help them to see that they got their rights and he wanted their help to see that the Indian gets his.

### DEERWOOD NOTES

Mrs. E. R. Masson and daughter Dorothy, were Brainerd visitors between trains on Saturday.

Mrs. Wm. Reid was a Brainerd visitor between trains on Tuesday.

Mrs. H. A. Knapp came down from Brainerd to spend a few days with Mrs. Cole.

Frank Blackburn visited over Sunday at the home of D. E. Whitten.

Miss Dalie Wetzel, Mrs. Soule, Glemiel Magee were Brainerd visitors between trains on Saturday.

Miss Ruth Adams went to Brainerd Saturday to spend Sunday with her friend, Miss Julia Wilson.

Mrs. Jacob Palmer entertained the Methodist ladies' aid on Thursday.

Easter exercises will be given Sunday night at 7:45 by the Sunday school children. The children have been drilled for the past weeks. A collection for the S. S. will be taken up. The church will be decorated with potted plants, which can be purchased at the close of the service, as they were shipped up from Seekins green house.

At the social which was held Saturday evening at the I. O. O. F. hall, ice cream and cake was served and the ladies made \$19.50. The proceeds are to help paper the church.

The diamond bit that was stolen from the firm of Cole & McDonald was found by a traveling man on Tuesday morning under the steps leading up to the depot platform. The bit is worth from \$1200 to \$1500.

Miss Vera Taylor and Mr. Alvin Marsh went to Brainerd on Wednesday. Reports are out they went to get married.

Mrs. Ole Lee and Christ Olson went up Friday night to return with Mrs. Christ Olson on Saturday p. m., who has been in the St. Joseph's hospital for the past four weeks.

Mrs. Anton Torgerson entertained a large aid on Thursday. A very pleasant time was spent.

Miss Inga Melvick is visiting with Miss Maggie Torgerson.

Mrs. Prest and little son spent Saturday and Sunday at the home of Dr. Wm. Reid. Mrs. Prest is Mr. Reid's brother's wife, who is purchasing agent for the N. P. Their home is in St. Paul.

Mrs. Marjorie Archibald spent Sunday at Bay Lake.

Charles Rudd, who has been with the Duluth Music House for the past seven years as their expert piano tuner, came up Saturday and found quite a lot of work here in the line of tuning and action regulating. He expects to make Deerwood regularly after this. There are over 24 pianos around here.

**Death Was on His Heels.**  
Jesse P. Morris of Skippers, Va. had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was at my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at Dunn's drug store. 50c and \$1.00. Trial bottle free. ttdw

**Child Burned to Death.**  
Greensburg, Pa., April 18.—The four-year-old son of Robert Wilkinson of Hermine, near here, was burned to death in a fire which destroyed the family home. The mother of the boy when awakened by smoke ran from the burning building, in her excitement forgetting the sleeping child in the room with her. She made frantic efforts to rescue him, and was frightfully burned about her face and hands.

### TWO MORE BODIES.

Recovered From the Ruins of the Fire at Chelsea, Mass.

Boston, April 18.—Two more bodies have been found in the ruins of the Chelsea fire of last Sunday, making the number recovered eleven and the number of known victims thirteen, which includes two who died in hospitals.

The latest bodies found were both males. The first found was recovered at 29 Marlborough street, where search was made through the efforts of a sister of a man who lived at that number and who had been missing. The body was identified by means of a watch and the teeth as that of Harry Lewis, aged forty-two years, employed as a messenger in Boston.

The second body was found at Popular street and was that of a male adult. The list of missing is still large and it is feared many of them perished.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

### GREATLY OUTNUMBERED.

But Russian Troops Defeated Kurdish Raiders.

Tiflis, April 18.—The Russian troops which recently invaded Persian territory in the vicinity of Lenkorah for the purpose of punishing Kurdish raiders of the Russian garrison at the frontier post, Belesuvar, April 13, acted with a promptitude calculated to overawe the tribes of the first class near Belesuvar.

The fight which ensued assumed the proportions of a pitched battle. The Russians were greatly outnumbered, but they pressed the battle with great vigor and routed the Persians, inflicting a loss of 34 men killed and 50 wounded. The remainder of the tribesmen broke and fled.

The Russians lost 1 officer and 7 soldiers wounded.

The cannonade set fire to the village of Belesuvar, the destruction of which was completed by the Cossacks after a ruthless house to house search for the Russian arms stolen during the raid of April 13.

Pressing their advantage, the Russians bombarded the neighboring villages of Kodzhabeklu and Zariah, and razed both.

The noncombatants suffered great losses.

### THE OLDEST AMERICAN.

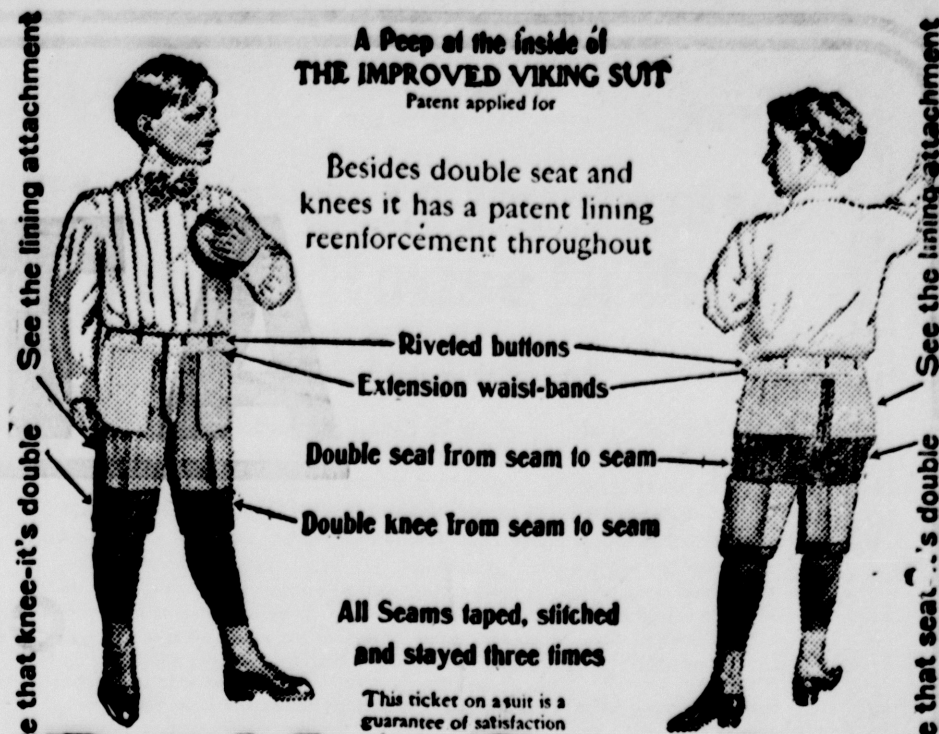

President Roosevelt Asks That the Indian Be Given a Fair Show.

Washington, April 18.—"After all, gentlemen, he is the oldest American of all of us; so give him a fair show; give him a chance."

In these words President Roosevelt spoke to the members of the Tulsa, Okla., Commercial club, who with a brass band and flaming banners called at the White House and made it known to the president that they favored the removal of restrictions of the sale of Indian lands in the new state. The president told the club that he would help them to see that they got their rights and he wanted their help to see that the Indian gets his.

Miss Hazeiton, Teacher of Music in Moorhead, to Sing Before the Teachers' Association

Supt. J. A. Wilson has succeeded in making arrangements for the presence of Supt. Weld and Miss Hazelton, the teacher of music at the Moorhead normal school at the coming meeting of the Crow Wing County Teachers' association which will meet in Brainerd Friday and Saturday of next week. Supt. Weld will deliver an address on the evening of the 24th. The meeting will be held in the high school room in the Washington building. Miss Hazelton will sing at the same meeting. An especial invitation is extended to the people of Brainerd and especially the teachers of the city schools to attend any or all sessions of the association. The members of the Ladies' Musical Club have signified their intention of going Friday evening to hear Miss Hazelton, who is said to be one of the finest singers in the northwest part of the state.

**Wood Shed Burns.**  
The fire department was called out this afternoon to extinguish a blaze that practically destroyed the wood shed at the residence of John Williams, 512 4th Ave. The shed caught from a pile of burning refuse that was set on fire and then not watched. At the same time a pile of lumber on 5th Ave. caught fire also from burning refuse, but was put out before much damage was done.

Chief McGinn, as fire warden, desires to caution all the citizens against making bonfires and then leaving them, to the danger of surrounding property. The law imposes a penalty for such carelessness, and he desires to state that it will be enforced.

**By the City in Beginning Condemnation Proceedings to Acquire Old Plant**

TO THE EDITOR:—  
I have read Mr. Lum's letter to the Dispatch. It contains much which is sensible and right, but some things in which he is in error.

For one of the errors, I am in part responsible because I expressed myself so awkwardly in my letter which you recently published. I did not mean to urge that the city should delay condemnation proceedings. I think on the contrary, that such proceedings should be begun at once. This is really the only course by which both the city and the bondholders can learn what the plant is worth, and the best and quickest course by which it may acquire the plant, if it wants to. If the price fixed is too high in popular opinion, the city will not have to pay it. It can abandon the proceedings at any stage. If, on the other hand, the price fixed is lower than the bondholders believe it should be, they will nonetheless have to accept it. The advantages are therefore all on the city's side.

The city cannot possibly tell whether it wants the plant or not until it knows what it will cost. There should be no objection from any one to finding this out. The estimates of experts outside of condemnation proceedings will not be without value, but they will not be conclusive until they have been presented to the commissioners and considered by them. In other words, while it is perhaps wise for the city to employ Mr. Morgan and for the company to have its own expert examine the plant, the machinery for finally passing on their conclusions should be provided at the same time.

There is no need of delaying until after the bond election. All that is necessary is for the council to direct the city attorney to go ahead and to vote funds for the expenses. By the date the experts have completed their work, the condemnation commissioners would have nothing further to do than to adopt their opinion. If they disagree, they could judge between them, and the city could buy or decline to buy at the price thus determined, as it saw fit. Mr. Lum is entirely right in his view that action in this direction should be started.

**MR. LUM'S LETTER**  
EDITOR DISPATCH.—  
I have learned that the receipts of the water plant are about \$26,000 per year out of which must be paid the expenses. Should the city be able to condemn the plant at \$70,000, which is my estimate, the interest charge would be \$2,800, leaving \$23,800. The city clerk's office will collect the rentals; one set of engineers will run both the water and electric light plant, the same fuel will almost run both if a standpipe be built. The electric power is required in the night and in the winter and the water works requires the power in the day time and mostly in the summer and the boilers are now worked day and night. The city is paying \$3,000 now for water power at the dam and maintaining a mile of main wires which would be saved. If the city gets the plant it can easily sell it for \$100,000 or more by giving a twenty year franchise. With good management the plant ought to be great source of revenue to the city, but it is usual with municipal plants to reduce the rates and not try to make a profit. The city of Duluth paid 1,100,000 for a plant in far worse shape than the Brainerd plant knowing that a new plant could be built for much less money. The power house was abandoned and the mains nearly all taken up and new pipe put in. Yet Duluth is held up as a model of municipal management. If you read only the criminal court records you would say all men are criminals. In the water plant the miles of good mains cause no trouble. It is the occasional bursting pipe that excites attention.

Every day the city loses means so many dollars for the water company, and so many dollars less for the city. Below is a letter I received from some Boston bankers whose client have a few water bonds. The banks and trust companies who originally buy bonds unload them onto farmers, workmen, guardians of estates, people who are unable to invest their own money and want more interest than a saving bank pays. The holders of these bonds have been getting only 4 1/2 per cent although the bonds read 6 per cent.

# The Largest Exclusive Music House in the Northwest

WE take an immense amount of pride in this plain, solid statement. For fourteen years we have been pounding along, climbing steadily on and up, striving to make each year a little bigger and better than the preceding year, eliminating the weak spots and strengthening the ties of good fellowship between ourselves and our old customers, and by square business dealing constantly adding new ones. There is hardly a man in this great Northwest that does not know that when he buys anything of Stone, whether it be a drum stick or a pipe organ, whether it be a jewsharp or a grand piano the goods are going to be exactly as represented and the price will be just a little lower than he can get anywhere else, and he knows, too, that he is going to get a square deal.

We want to make this the biggest and best music house in the country and if you are not a customer of ours now, we want to make you one. We want your next order for anything in the music line and we know that if you will give us the opportunity we will make you a permanent customer. We guarantee it.

some Brainerd Water Company first mortgage 4 1/2 per cent bonds at 40. We do not know of any bonds for sale at this figure. We know of a few bonds we might get at 65 or possibly 60. We think you will find upon appraisal the value of this property will be at least par, for since these works were built and within the last eight or ten years all classes of waterworks material and labor have increased at 35 per cent and this increase in the cost of material and labor has had the effect of increasing the value of those plants constructed prior to the last eight or ten years. Waterworks mains do not deteriorate to any comparative degree when in the ground and waterworks mains that have been taken up and found to be in perfect state of preservation and were relaid in another section of the plant.

The law will protect the bond holders in this matter under condemnation proceedings and the same can be carried to the United States courts where the bond holders will receive fair treatment if they do not receive the same under local jurisdiction.

**Miss Hazelton, Teacher of Music in Moorhead, to Sing Before the Teachers' Association**

Supt. J. A. Wilson has succeeded in making arrangements for the presence of Supt. Weld and Miss Hazelton, the teacher of music at the Moorhead normal school at the coming meeting of the Crow Wing County Teachers' association which will meet in Brainerd Friday and Saturday of next week. Supt. Weld will deliver an address on the evening of the 24th. The meeting will be held in the high school room in the Washington building. Miss Hazelton will sing at the same meeting. An especial invitation is extended to the people of Brainerd and especially the teachers of the city schools to attend any or all sessions of the association. The members of the Ladies' Musical Club have signified their intention of going Friday evening to hear Miss Hazelton, who is said to be one of the finest singers in the northwest part of the state.

### Wood Shed Burns.

The fire department was called out this afternoon to extinguish a blaze that practically destroyed the wood shed at the residence of John Williams, 512 4th Ave. The shed caught from a pile of burning refuse that was set on fire and then not watched. At the same time a pile of lumber on 5th Ave. caught fire also from burning refuse, but was put out before much damage was done.

Chief McGinn, as fire warden, desires to caution all the citizens against making bonfires and then leaving them, to the danger of surrounding property. The law imposes a penalty for such carelessness, and he desires to state that it will be enforced.

some Brainerd Water Company first mortgage 4 1/2 per cent bonds at 40. We do not know of any bonds for sale at this figure. We know of a few bonds we might get at 65 or possibly 60.

We think you will find upon appraisal the value of this property will be at least par, for since these works were built and within the last eight or ten years all classes of waterworks material and labor have increased at 35 per cent and this increase in the cost of material and labor has had the effect of increasing the value of those plants constructed prior to the last eight or ten years. Waterworks mains do not deteriorate to any comparative degree when in the ground and waterworks mains that have been taken up and found to be in perfect state of preservation and were relaid in another section of the plant.

The law will protect the bond holders in this matter under condemnation proceedings and the same can be carried to the United States courts where the bond holders will receive fair treatment if they do not receive the same under local jurisdiction.

### St. Paul Man Drowned.

Fort Frances, Ont., April 18.—William Brack of St. Paul, twenty-seven years old, was drowned at Pither's Point, where a new steel bridge crosses Rainy river, as the result of a canoeing accident. His companion, William Jones, the bridge superintendent, barely escaped death. Their canoe capsized while they were endeavoring to run the rapids.

Gentlemen: I have been a sufferer from rheumatism. I was laid up in bed and gave up all hope of being cured. Your remedy was recommended to me by Chief of Police O'Connor, who said 6088 had cured him. On taking one-fourth of the bottle I was able to get out of bed—the first time in thirty days. I have taken my second bottle and now consider myself entirely cured. I write this that others may know of this wonderful remedy. Respectfully yours,

### A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used than for extracting and preserving the medicinal principles used in them, viz., pure triplene refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for the acute coughing from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

### CONNERS MEETS BRYAN.

But No Political Significance Is Attached to the Meeting.

Rochester, N. Y., April 18.—"Just here to pay my respects to the Colonel, that's all," said W. J. Connors of Buffalo, chairman of the state Democratic committee, at the reception held for W. J. Bryan in Powers hotel.

"There's no political significance in the meeting," Mr. Bryan had said a moment before to the reporter and had called Mr. Connors back to have him confirm his statement. Norman E. Mack of Buffalo, Democratic committeeman, who had a conference with the Nebraskan, had much the same to say of his meeting, and so far as is known no special significance is to be attached to any meetings had here by Mr. Bryan with politicians of more or less prominence. After his interview with Mr. Mack and a brief rest, Mr. Bryan spoke at a meeting of the Rochester Ministerial association in Y. M. C. A. hall. His address was tinged with optimism. He emphasized the idea of the relation between true religion and fundamental science.

Students and their friends filled the gymnasium of the University of Rochester when Mr. Bryan made his address there. Mr. Bryan's general subject was education, and he spoke at length on public speaking and its importance.

Unusual interest was felt in the reported importance conference that was to be held between Mr. Bryan and Mr. Connors, and this added to the animation of the reception held in Powers hotel, when about 500 Democrats and some others shook hands with Mr. Bryan. When Mr. Connors came to the hotel he was asked if there was any particular significance about his meeting with Mr. Bryan, and he replied that there was not—that it had been suggested by New York friends of Mr. Bryan that they meet for a conference.

Mr. Bryan assured the reporters that at the meeting only friendly greetings had been exchanged.

### M'CARREN IS ACTIVE.

Confers With Other Democratic Leaders in New York State.

New York, April 18.—Preliminary to a conference of certain Democratic leaders of the state to be held within ten days here for the purpose of crystallizing any sentiment in disapproval of the Democratic state convention in electing a new state committee, instead of accepting the choices of the several senatorial districts, Senator Patrick H. McCarren of Kings county conferred with Samuel A. Beardsley of Utica and other Democratic leaders from up the state.

Senator McCarren, who met the others at the Hoffman House, would not give out the names of those Democrats with whom he talked. While the situation was discussed in a general way plans for any definite action to be taken will be drawn at a general conference which, Senator McCarren said, would be attended by representatives from at least thirty-five counties in the state.

Senator McCarren declared that the action of the convention in depriving the senatorial districts of the right of naming their own state committee-men was a high-handed outrage. He said:

"There will be a general conference of Democratic leaders within a week or so in this city to take such action as will make known a united opposition to the indefensible action of the recent convention in disfranchising the Democratic voters up-state."

### BRYAN IS A HAS BEEN.

According to a Statement Credited to Governor Johnson.

St. Paul, April 18.—A special to the Pioneer Press from Omaha says:

John A. Johnson, governor of Minnesota, who recently announced that he was merely a receptive and not an open and active candidate for the Democratic nomination for president, shattered that statement to smithereens and declared open war on William J. Bryan. This is what he said: "William Jennings Bryan is a has been. His star reached its zenith some time ago, and when his name goes before the Denver convention he will be looking for votes. The tide always has a limit. It continues to swell until that limit is reached, and then it recedes. The tide of the popularity of Mr. Bryan reached that limit with the adjournment of the state convention in Nebraska, which lauded him and recommended him for another nomination, and has been receding ever since."

Governor Johnson made this statement here as the opening gun in his fight for the presidency. The governor was in Omaha on his way to Kansas, where he will make an address at Bethany college in Lindsborg.

### Evidence of a Wreck.

Victoria, B. C., April 18.—Evidence that some unidentified vessel, seemingly a large sailing ship, has met disaster, probably with loss of life, off the Vancouver Island coast, is given in a dispatch received from Light-house Keeper W. H. Baykin of Carmanah Point, telling of a large quantity of wreckage which came ashore six miles east of Carmanah.

### Leaves Are Breaking.

Little Rock, Ark., April 18.—Reports from the lower Arkansas river say the levees are breaking in many places on account of high water. A message received here from the penitentiary told of a break in the levee above the state farm. Hundreds of convicts aided in closing the break.

### WEEKLY REVIEW OF TRADE

Retail Business Affected by Unfavorable Weather.

New York, April 18.—Bradstreet's review of trade says Easter trade at retail, though affected in sections by unfavorable weather, is, on the whole, fair. Collections show slight improvement at a few centers and filling in orders by jobbers are a trifle better, but reports from leading industries are no more favorable; rather more weakness is noted in iron and steel and fall trade in leading lines is still disappointingly backward. The dullness in building lines—expenditures for the first quarter being 40 per cent below 1907—affects all lines of material and export and import trade are ebbing, indicating the first decrease in foreign trade from the preceding fiscal year noted for five years past. The number of idle hands is as large as for some time past, wage reductions curtail buying power, and the number of failures continues far ahead of a year ago. Easier conditions prevail in the iron and steel markets and production is smaller than it was a few weeks ago. Bustiness in pig iron is very light and lower prices have been made to attract even the small business going. Finished iron and steel are likewise quiet and rail orders are only fair.

### Her Dukelet.

"Who are those people on the shore?" implored the duke's fair bride.  
"My creditors, my creditors," the little duke replied.  
"What makes you look so sad, so sad?" implored the duke's fair bride.  
"I'm dreading what I've got to face," the little duke replied.  
For my tailor's there among 'em, and he'll clamor for his pay.  
My hatter weighs two hundred, and his flat is hard, they say.  
I wish your pa had settled things before we sailed away.  
For they'll all be jumpin' on me at the landin'!"

"What makes them have that hungry look?" implored the duke's young bride.

"They've waited long, they've waited long," the little duke replied.

"What makes that tall man shake his flat?" implored the duke's young bride.

"He wants his cash, he wants his cash," the little duke replied.

"He's the man from whom I purchased the engagement ring you wear.

For I told him that your father was a multimillionaire.

He's as strong, they say, as Samson was before he lost his hair.

And I'm dreading what'll happen when we're landin'!"

"What makes the crowd increase so fast?" implored the duke's sweet bride.

"More creditors, more creditors," the trembling duke replied.

"Why do they seem so rude, so rude?" implored the duke's sweet bride.

"Because, alas, they are canaille," the trembling duke replied.

"Your pa was cruel hard to make the dot he gave so small.

If I should settle with them, we'd have nothin' left at all.

Address 'em from the gangway—try to stand 'em off till fall—

Or they'll do things that may shock us at the landin'!"

—S. E. Kiser in Chicago Record-Herald.

### Telegrapher Ends His Life.

Minneapolis, April 18.—To join his young bride in death, Robert E. Hoffman, a telegraph operator, twenty-eight years old, committed suicide by locking himself in a room at the Beaufort hotel and turning on all the gas jets. A year ago Hoffman married Tennessee Butler of Glenwood, Minn. After a few months she died. Hoffman attempted to commit suicide twice before he finally succeeded in ending his life.

## Are You Bankrupt

IN NERVE FORCE?

If you spend three dollars a day and earn two you are sure to come to bankruptcy and yet this is just what thousands of us are doing in regard to health. By overwork, worry and anxiety the energy and vigor of the body is wasted more rapidly than it is built up and the result is bankruptcy of health. Sleeplessness, headaches, indigestion, worn-out feelings, spells of weakness and despondency are some of the symptoms which tell of the approach of nervous prostration or paralysis.

## Dr. A. W. Chase's Nerve Pills

Supply in condensed and easily assimilated form the very ingredients from which Nature constructs nervous energy and builds up the human system. They positively overcome the symptoms referred to above and prevent and cure the most serious forms of nervous diseases. 50 cents a box, at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

Miss T. Martin, 524 Sherman Avenue, Troy, Ohio, says:

"By overwork I was compelled to give up in such a weakened condition that it resulted in nervous prostration. I secured Dr. A. W. Chase's Nerve Pills, and continued the treatment until it completely restored me to my usual strength and good health."

A serious problem for the people of Canada to solve is the fuel supply of the future. No coal of any kind has ever been discovered in Ontario. In the older part of the province the timber is practically exhausted.

#### A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate woman and child. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz., pure refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and a purgative, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heartburn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-over coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption. It is the best medicine that can be taken.

##### "At the Unique"

At this popular theatre last night the audience was treated to one of the best programs that has been seen in Brainerd in a long time. The illustrated song, "When its Moonlight, Mary Darling Neath the Old Grape Arbor Shade," sang by Miss Kathleen Graham was a beautiful piece as was her solo, "Out in the Woolly West," which was rendered in her usual high standard. The headliner was "Jerusalem in Olden Days" which is a rare piece in the motion picture line, showing the differt scenes in Jerusalem and in fact one of the finest films that has been seen here. "Custom Officers Mystified" was a comic film. "Play-mates" was fine, showing the affections of a beautiful greyhound dog for his little mistress, who became sick while eating her supper and who was sent to get the little girl's mother, who sent for a doctor, and how the dog stayed by her bedside and put his head between his paws and offered up a silent prayer for her recovery which turns out all right in the end. "Mr. Newly Wed and his Mother-in-law" was a comic film which kept the audience in an uproar of laughter from start to finish.

##### Slayton's Tennesseans

When a colored man or woman sets his face toward a goal and then by hard, sincere work attains that position for which he seeks, he should be accorded all the praise due him. And more especially since he is handicapped, as we know all colored people who seek a higher education are. The members of the Slayton Tennesseans are every one of them well educated, refined colored people and after years of conscientious work and study have at least reached a position where they are recognized as musicians of genuine ability. Not many years ago it was unknown for a colored singer to attempt the grade of work these jubilee singers are now offering. And the fact that they are so well received in every town they appear in is a testimony of the success of their efforts. Their concerts are no longer in the experimental stage; they have been recognized as successes. The Slayton Tennesseans will appear at the Brainerd opera house Wednesday, April 22.

##### Clay Clement

Miss Kathleen Kerrigan the leading lady of the Clay Clement Co. is a southern girl of extraordinary dramatic ability; aside from that, she is a very beautiful woman in looks as well as figure. She has a magnificent stage presence and never fails to please her audience; she has a very pleasing manner and is also very magnetic. At the opera house, April 24.

##### "Bijou"

"Wanted, An Actor," the sketch of the Stocktons at the Bijou last night was another big hit and kept the crowd in a roar from start to finish. "A Country Seminary" was the headliner of the moving pictures and the illustrated song was "Don't Leave the Old Folks, Jennie."

Parent—Bobby, did you pick all the white meat off this chicken?  
Bobby—Well, pop, to make a clean breast of it, I did.

#### CONNERS MEETS BRYAN.

But No Political Significance Is Attached to the Meeting.

Rochester, N. Y., April 18.—"Just here to pay my respects to the Colonel, that's all," said W. J. Connors of Buffalo, chairman of the state Democratic committee, at the reception held for W. J. Bryan in Powers hotel.

"There's no political significance in the meeting," Mr. Bryan had said a moment before to the reporter and had called Mr. Connors back to have him confirm his statement. Norman E. Mack of Buffalo, Democratic committeeman, who had a conference with the Nebraskan, had much the same to say of his meeting, and so far as is known no special significance is to be attached to any meetings had here by Mr. Bryan with politicians of more or less prominence. After his interview with Mr. Mack and a brief rest, Mr. Bryan spoke at a meeting of the Rochester Ministerial association in Y. M. C. A. hall. His address was tinged with optimism. He emphasized the idea of the relation between true religion and fundamental science. Students and their friends filled the gymnasium of the University of Rochester when Mr. Bryan made his address there. Mr. Bryan's general subject was education, and he spoke at length on public speaking and its importance.

Unusual interest was felt in the reported importance conference that was to be held between Mr. Bryan and Mr. Connors, and this added to the animation of the reception held in Powers hotel, when about 500 Democrats and some others shook hands with Mr. Bryan. When Mr. Connors came to the hotel he was asked if there was any particular significance about his meeting with Mr. Bryan, and he replied that there was not—that it had been suggested by New York friends of Mr. Bryan that they meet for a conference.

Mr. Bryan assured the reporters that at the meeting only friendly greetings had been exchanged.

#### M'CARREN IS ACTIVE.

Confers With Other Democratic Leaders in New York State.

New York, April 18.—Preliminary to a conference of certain Democratic leaders of the state to be held within ten days here for the purpose of crystallizing any sentiment in disapproval of the Democratic state convention in electing a new state committee, instead of accepting the choices of the several senatorial districts, Senator Patrick H. McCarren of Kings county conferred with Samuel A. Beardsley of Utica and other Democratic leaders from up the state.

Senator McCarren, who met the others at the Hoffman House, would not give out the names of those Democrats with whom he talked. While the situation was discussed in a general way plans for any definite action to be taken will be drawn at a general conference which, Senator McCarren said, would be attended by representatives from at least thirty-five counties in the state.

Senator McCarren declared that the action of the convention in depriving the senatorial districts of the right of naming their own state committeemen was a high-handed outrage. He said:

"There will be a general conference of Democratic leaders within a week or so in this city to take such action as will make known a united opposition to the indefensible action of the recent convention in disfranchising the Democratic voters up-state."

#### BRYAN IS A HAS BEEN.

According to a Statement Credited to Governor Johnson.

St. Paul, April 18.—A special to the Pioneer Press from Omaha says:

John A. Johnson, governor of Minnesota, who recently announced that he was merely a receptive and not an open and active candidate for the Democratic nomination for president, shattered that statement to smithereens and declared open war on William J. Bryan. This is what he said:

"William Jennings Bryan is a has been. His star reached its zenith some time ago, and when his name goes before the Denver convention he will be looking for votes. The tide always has a limit. It continues to swell until that limit is reached, and then it recedes. The tide of the popularity of Mr. Bryan reached that limit with the adjournment of the state convention in Nebraska, which lauded him and recommended him for another nomination, and has been receding ever since."

Governor Johnson made this statement here as the opening gun in his fight for the presidency. The governor was in Omaha on his way to Kansas, where he will make an address at Bethany college in Lindsborg.

#### Evidence of a Wreck.

Victoria, B. C., April 18.—Evidence that some unidentified vessel, seemingly a large sailing ship, has met disaster, probably with loss of life, off the Vancouver Island coast, is given in a dispatch received from Light-house Keeper W. H. Baykin of Carmanah Point, telling of a large quantity of wreckage which came ashore six miles east of Carmanah.

#### Levees Are Breaking.

Little Rock, Ark., April 18.—Reports from the lower Arkansas river say the levees are breaking in many places on account of high water. A message received here from the penitentiary told of a break in the levee above the state farm. Hundreds of convicts aided in closing the break.

#### WEEKLY REVIEW OF TRADE

Retail Business Affected by Unfavorable Weather.

New York, April 18.—Bradstreet's review of trade says Easter trade at retail, though affected in sections by unfavorable weather, is, on the whole, fair. Collections show slight improvement at a few centers and filling in orders by jobbers are a trifle better, but reports from leading industries are no more favorable; rather more weakness is noted in iron and steel and fall trade in leading lines is still disappointingly backward. The dullness in building lines—expenditures for the first quarter being 40 per cent below 1907—affects all lines of material and export and import trade are ebbing, indicating the first decrease in foreign trade from the preceding fiscal year noted for five years past. The number of idle hands is as large as for some time past, wage reductions curtail buying power, and the number of failures continues far ahead of a year ago. Easier conditions prevail in the iron and steel markets and production is smaller than it was a few weeks ago. Business in pig iron is very light and lower prices have been made to attract even the small business going. Finished iron and steel are likewise quiet and rail orders are only fair.

#### Her Dukelet.

"Who are those people on the shore?" implored the duke's fair bride. "My creditors, my creditors," the little duke replied. "What makes you look so sad, so sad?" implored the duke's fair bride. "I'm dreading what I've got to face," the little duke replied. "For my tailor's there among 'em, and he'll clamor for his pay. My hatter weighs two hundred, and his first is hard, they say. I wish your pa had settled things before we sailed away. For they'll all be jumpin' on me at the landin'!"

"What makes them have that hungry look?" implored the duke's young bride. "They've waited long, they've waited long," the little duke replied. "What makes that tall man shake his fist?" implored the duke's young bride. "He wants his cash, he wants his cash," the little duke replied. "He's the man from whom I purchased the engagement ring you wear. For I told him that your father was a multimillionaire. He's as strong, they say, as Samson was before he lost his hair. And I'm dreading what'll happen when we're landin'!"

"What makes the crowd increase so fast?" implored the duke's sweet bride. "More creditors, more creditors," the trembling duke replied. "Why do they seem so rude, so rude?" implored the duke's sweet bride. "Because, alas, they are canaille," the trembling duke replied. "Your pa was cruel hard to make the dot he gave so small. If I should settle with them, we'd have nothin' left at all. Address 'em from the gangway—try to stand 'em off till fall. Or they'll do things that may shock us at the landin'!"

"What makes the crowd increase so fast?" implored the duke's sweet bride. "More creditors, more creditors," the trembling duke replied. "Why do they seem so rude, so rude?" implored the duke's sweet bride. "Because, alas, they are canaille," the trembling duke replied. "Your pa was cruel hard to make the dot he gave so small. If I should settle with them, we'd have nothin' left at all. Address 'em from the gangway—try to stand 'em off till fall. Or they'll do things that may shock us at the landin'!"
